"Ivy League" at Hemet High is a state of mind. Just as teenagers expressed their insecure feelings and "what's the use attitude" of the last decade in the carelessness with which they dressed; so, today's better adjusted and all-around, happier teenager finds expression for his more positive feelings through dressing in a more positive manner. In the neat, but colorful stripes and buckles and button down collars, the example set by the Ivy League Schools of the East spread throughout the country.

With this in mind, at the beginning of the school year, theme hungry staff members selected "Ivy League, A State of Mind," as the "atmosphere" for the 1957 Tahquitz Annual.

DEDICATION

Mr. Leonard Schelf has been a teacher, counselor, and friend of the Hemet students for 13 years. During this time he has given of his energies and time to help the students make decisions in planning their careers according to their abilities. He has consistently worked to teach them how to live harmoniously in our modern society. He has kept his standards high and has been the type of person the students could work with and talk to with the knowledge that their interests were uppermost in his mind.

As a token of appreciation for his friendly, sincere help, the Annual Staff is happy to dedicate the 1957 Tahquitz to Mr. Schlef.

IN MEMORY OF MEG

Margaret Geiser, fatally injured in an automobile accident on December 22, 1956.

As an enthusiastic and talented artist, Meg served on the annual staff and assisted on various community projects. Petite Meg loved o dance, and could be found at nearly every congregation of the local young people's dancing group. She was an active and devoted member of the Idyllwild Presbyterian Church.

With her sincere, positive approach to life, and her gracious smile Meg was a well loved person — certainly deserving of the numerous friends who will always remember her.

Administration

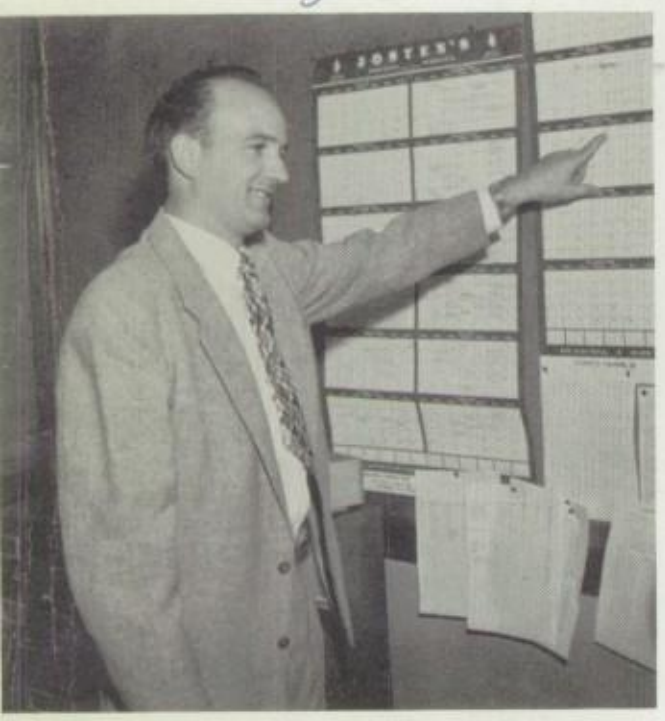
Shown from left to right: Mrs Alice Nelsop, Claire Gillette clerk, Kenneth Brazier, construction foreman of the new gym handing the key to the gym t Hillas Cole, president, Richar Elliott, Webb Drawbaugh, district building inspector, and William Watson.

Jr. High office secretary — Mrs. Adele Weseloh found her days well filled as usual.

Sr. High office secretaries — The ditto machine was a familiar friend of Mrs. Geneva Mengel, Miss Martha Stuckey and Miss Jenon Yancey.

Administration office secretaries — By the smiles on the faces of Miss Nelda Boynton, Miss Bessie Milligan, Mrs. Nora Borders and Mrs. Stella Moore it seems that Mrs. Scott's leadership was not too severe. Mrs. Ann Hanssler was not present for the picture.

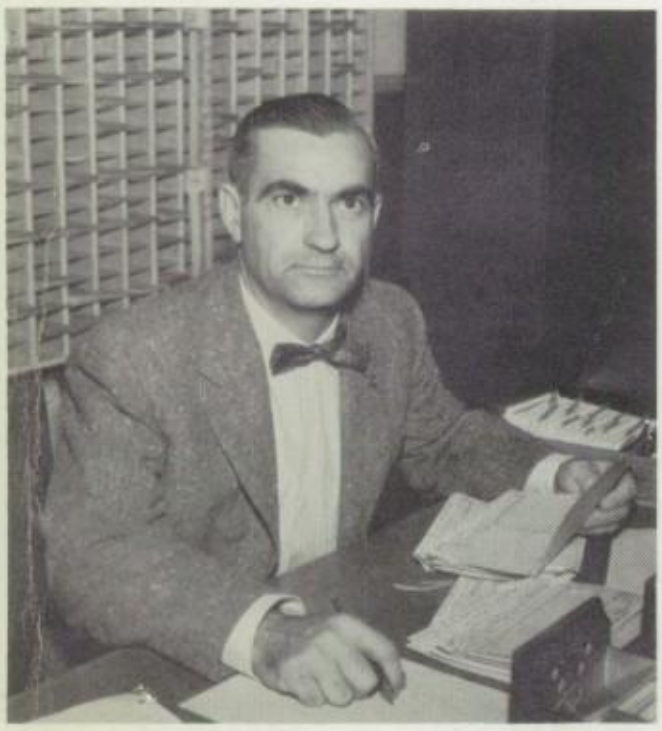
James,
Good luck to
you. Have a nice
Summer
R E Hummel



JAMES HALLE — vice principal, helped to arrange and put on the school calendar the various school activities.

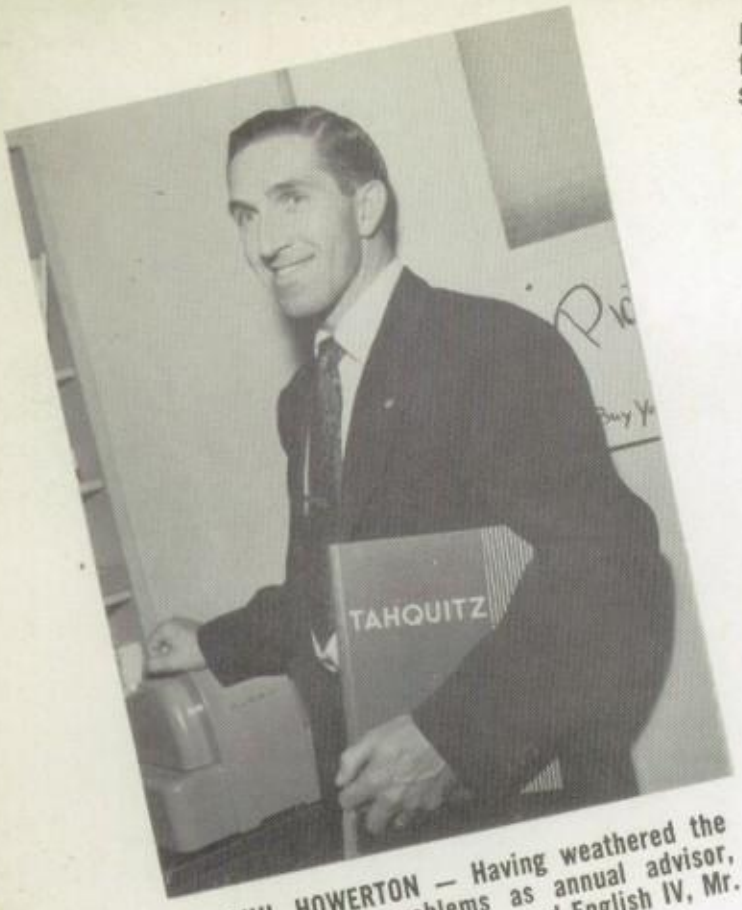
ROBERT HUMMEL — principal, kept the interests of the faculty and students in mind as he gave valuable leadership to the school.

JACOB WIENS — district superintendent, worked long and hard. By the smile on Dr. Wiens' face it seems the desired results were obtained.



KENNETH NEWTON—Watching over and guiding Hemet High students on their way was a true and trusted friend, Mr. Newton.

LEONARD SCHLEF—Whatever the need Mr. Schlef was there and the way always seemed easier after talking to him.



PHIL HOWERTON — Having weathered the storms and problems as annual advisor, student council sponsor and English IV, Mr. Howerton smiles with pride.

ROBERT TAYLOR — Dreaming of faraway places away from the English, Spanish, and French classes can be so pleasant sometimes.

GLENN STEINBACK — Stuck with six periods of science, namely biology, zoology, botany, and physical science, Mr. Steinback kept his fine personality to the bitter end.

TED SMITH—"What imaginations some folks have!" grins Coach Smith relaxing in general business class after hearing all kinds of excuses in the attendance office where he can usually be found.

Proving once again that our fine staff of teachers and advisors have a great sense of humor, they were willing prey to our demands for casual shots of them. Perhaps they would have hesitated if they had known the plans that were in store for them, hesitated . . . possibly, but they would have thrown themselves into it as wholeheartedly as they did anyway. Our teachers are always willing to lend help where necessary, donate their time to student activities, and they are always willing to share a good joke.

MRS. OZELLA BOUNDS — Known to her core 7, math, and reading classes is Mrs. Bounds' pleasant smile and ever present interest in all.

MRS. MARIAN WALTZ — Imagine no television antenna! Mrs. Waltz seems surprised that her art classes remember the days before TV.

DON COUTTS — Even teachers have assignments that must be in on time admits our science teacher.

LLOYD WIXOM — That will keep them busy for the rest of the week, grins the instructor of mechanical drawing, trigonometry, and metal shop.

MRS. JESSIE SHEPARD — Bookkeeping presents problems to many teachers of art crafts but it's far easier to face them with a smile.

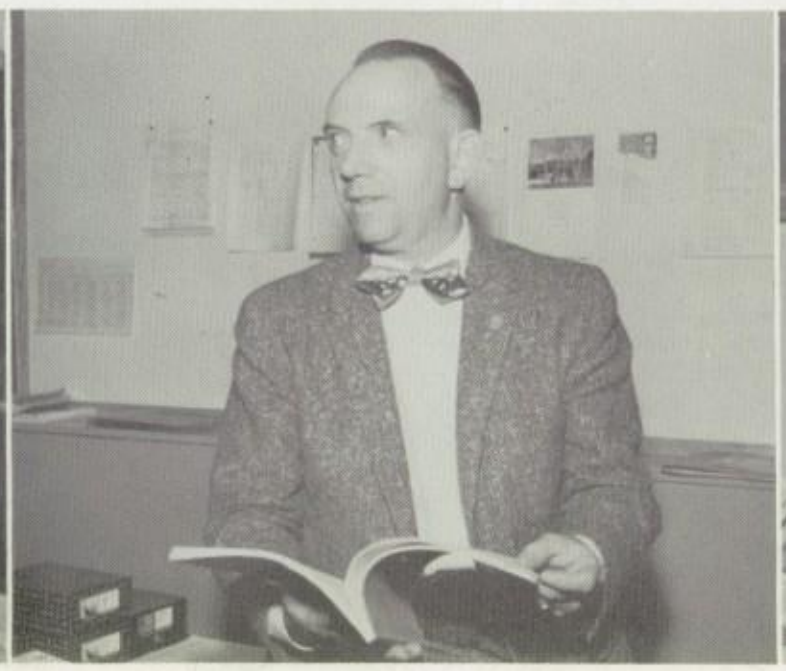
TED HENDERIXSON — Education sure pays off when it comes to a tough problem finds math teacher, Mr. Henderixson.

MRS. MILDRED HIGHT — "We won!" That isn't a look of surprise on the face of our popular teacher of typing, shorthand, speech, and drama — it's just delight.

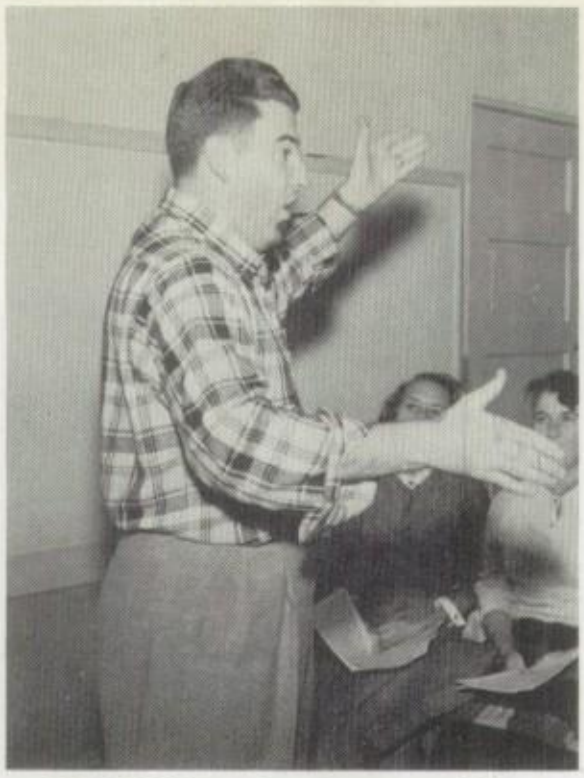
MRS. MARY LEE FRICKER — A girl has to get her own sewing done sometime even if it is between teaching classes of homemaking and clothing.

ROBERT WALTER — Of course that's the sentence that was just dictated! After all, teaching typing, bookkeeping, and work experience doesn't cause absent-mindedness.

MISS MABEL ALMQUIST — Teaching all the U. S. history classes and English, too, is apt to cause anyone to read the paper upside-down.



CHARLES REED — Believe it or not, this is a molecule. Things don't always work out so well in chemistry, physics, and algebra.



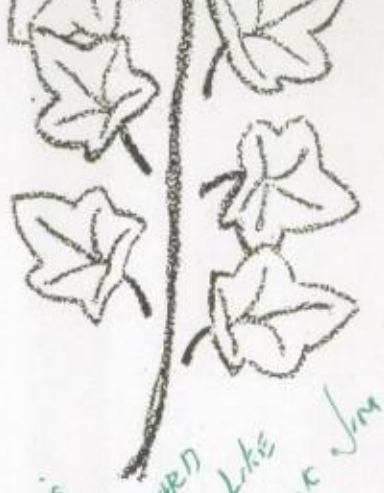
EARL JARDINE — Deeply engrossed in explaining how big the fish was that got away is Mr. Jardine, director of band and chorus.

JAY DEAN — Passing back papers is a usual routine f teachers, even teachers of math, core, and reading.

JAMES TAYLOR — No, it's not from outc space. It's our friend, Mr. J. Taylor, a work in ag. shop. He also teaches agricu ture and sponsors the FFA.

Best wishes
Beverly Gray

ISS ISABELLE SHELLER — There's more than one way to ut grades! Even girls' P.E. teachers have the problem of eport cards.

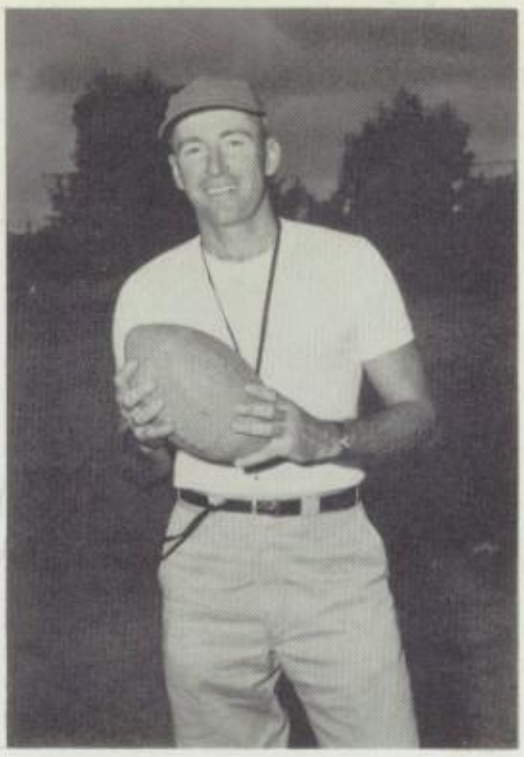


THE SERVICE IS A GREAT THING TO LOOK FORWARD TO — IF YOU LIKE IT! — GOOD LUCK Jim

RAYMOND KNERR — The trouble with diagrams of baseball diamonds is that they leave little room for imagination. Coach Knerr also teaches social studies and math.

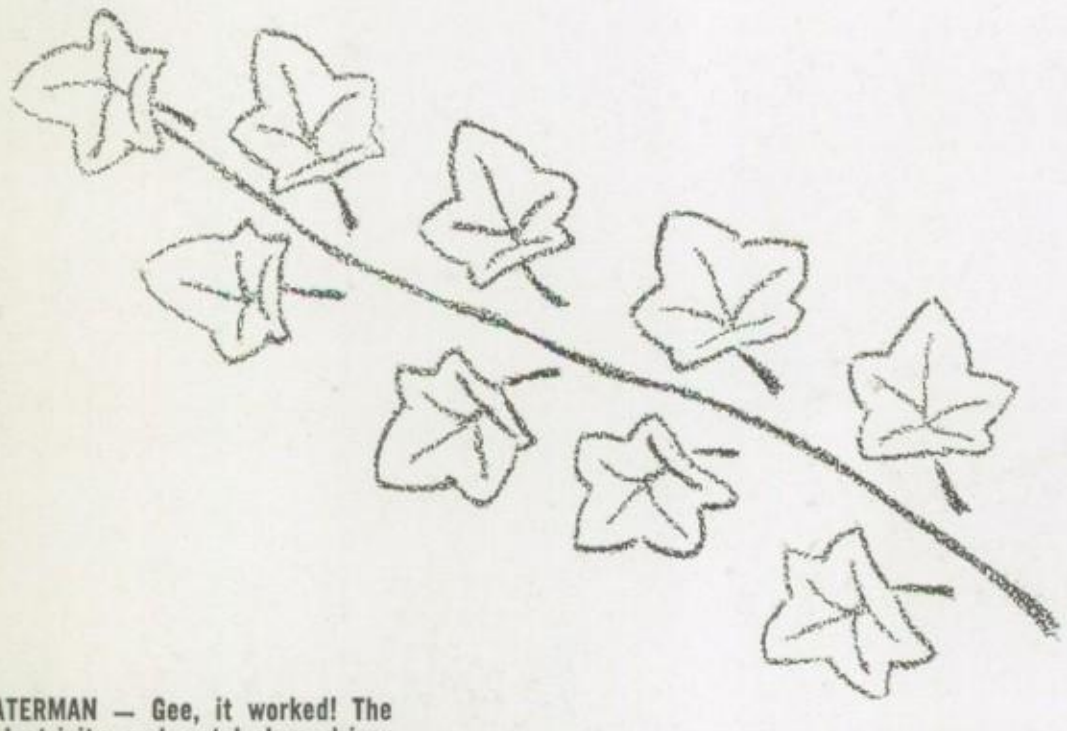
ROY COOPER — The locker room of the new gym meets with Coach Cooper's approva as well as with the students in his boys P.E. classes.

CHARLES CALLIN — A little boning up on the subject by the back fence never hurt anyone — even a teacher of audio-visual, math, core 7, and penmanship.



GEORGE GAUDREAULT — Coach Gaudreault seems very pleased over the results of his training in his boys' P. E. classes.

MRS. MARY WILSON — Vacation always brings a smile. In school Mrs. Wilson teaches algebra, math, and core 7.

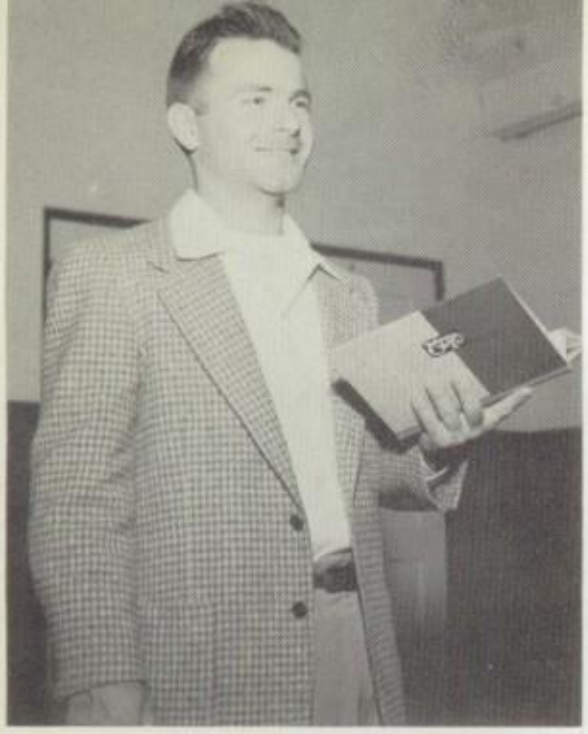


EVANS WATERMAN — Gee, it worked! The study of electricity, and metal shop, driver training is very interesting for students and teacher.

MRS. PEARL TUTTLE — These books are pretty good, and more are constantly added thus keeping the librarian busy.

WALTER ABRAMSON — So the alarm really does work! They should be here anytime now. Usually Mr. Abramson is busy with his math and core 8 classes.

MRS. AMILEE JONES — As school nurse and instructor in home nursing and first aid,



NORMAN PERLUSS — Smiles add cheer to everyone's life and Mr. Perluss' friendly smile is well known in his math, core, and reading classes.

STANLEY KELLER — What a strange sense of humor! Probably the literary works of a student in driver training, world histoy, or physical science.

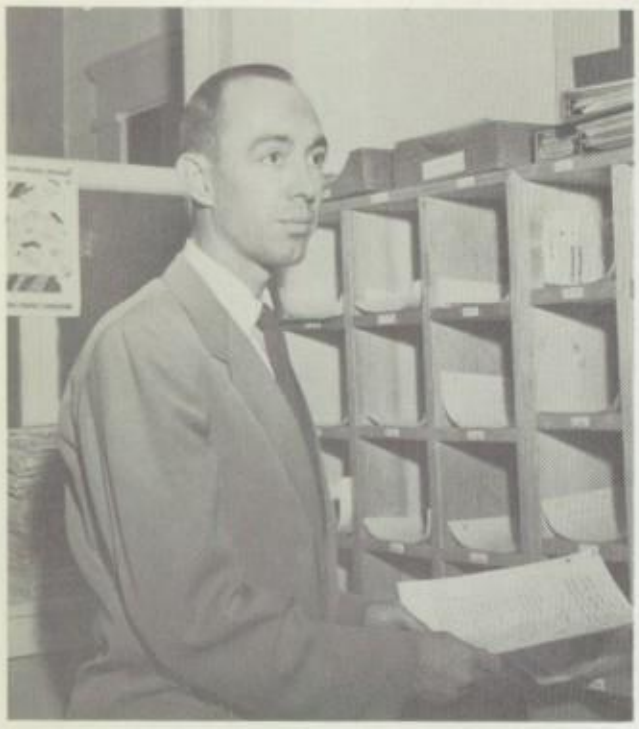
GLEN NEWMAN — The first year at Hemet has been a full one for Mr. Newman, teaching English III, dramatics, and directing the junior class play.

MISS BARBARA HOLLOWAY — It is doubted that the mysterious smile can be wholly attributed to Miss Holloway's P.E. classes.

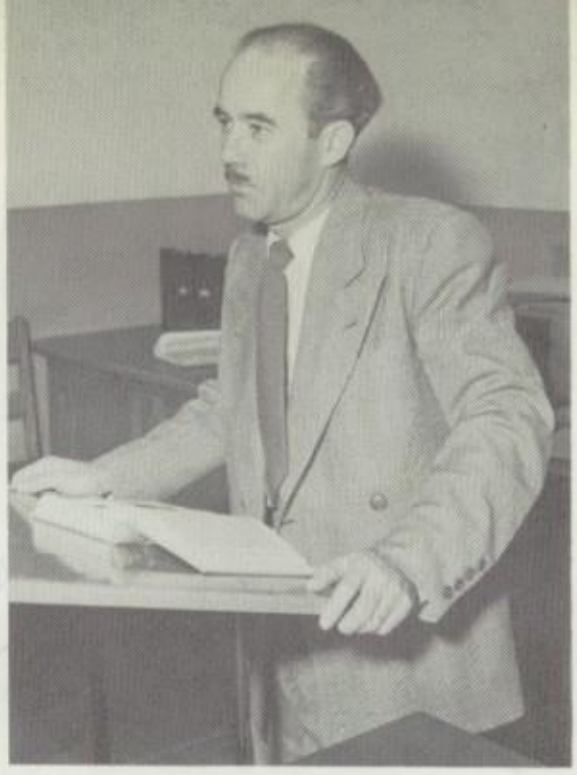
BERNARD COYNE — Away from the noise and confusion of geometry and algebra classes! Ah, peace and quiet!

ROBERT PALMER—Senior English has been added to a Spanish teacher's duties but anyone can learn Spanish! It just takes some such a long time.

MRS. WILMA READ—The full and varied day is nearly over and soon it will be time to lock up and go home.



BRYAN STEPHENS — "They were told not to leave anymore in my box!" Mr. Stephens teaches English II, core 7, and photography.



PHIL SIMON — His mother told him there would be days like this,, even so, his civics and senior problems classes were very interesting and inspiring.

FLOYD LEIGH — Life was seldom dull for anyone in Mr. Leigh's core 8, in fact his students even helped him move into his new home.

Mrs. VELMA HOWARD — Diagraming sentences and spelling are essential practices in Mrs. Howard's English and journalism classes.

JOSEPH MARSHALL — World history and driver training kept our new football coach mentally as well as physicaly in shape.

RAYMOND ZOSEL — Wood shop and mechanical drawing filled Mr. Zosel's time and some very interesting objects appeared from the shop classes.

MISS EDNA FLETCHER—Home a the range as usual is our busy teacher of home crafts, foods homemaking and boys' home ec

CUSTODIANS, left to right, BACK ROW: C. E. Story, William Maddox, Herbert Sass. FRONT ROW: Michael Michalko, Harry Hein.

Our maintenance men, under the direction of Stuart Pender certainly made things more convenient this year by converting the old English room into new offices.

The custodians, headed by the capable Harry Hein, relaly kept things ship-shape around here. Besides all-around cleaning, they were often seen delivering supplies to the class rooms.

BUS DRIVERS, left to right: BACK ROW: Sylvester Costo, Kenneth Neste, Almeron Swanger, Wayne Todd, H. F. Lindsey, Glen Holmes. FRONT ROW: Joe Triola, Milton Fisher, Amos Churchill, Howard Dorethy.

To keep Hemet High looking like the wonderful school it is, we have the assistance of two gardners, Warren Holms and Murray Duncan.

Last but not least we have the "second to none" Joe Triola who takes care of our all-important football field.

GARDENERS: Murray Duncan, Warren Holmes.

COOKS: Wilma McColl, Marie Miller, Lois Bottom, Elizabeth McGrew. BOTTOM: Mildred Malony.

The familiar ring around about 11:30 is the "on stage" cue for our cafeteria cooks. There's nothing like a nice hot lunch on a cold, wintry day, or a cool, crisp salad on a warmer day.

This has been a big year for Student Government in its trial run with the new constitution which introduced an entirely new system for Hemet High. The council meets daily and reports to classes weekly for discussion and suggestions.

Our council has been given the responsibility to make important decisions rarely granted by administrators to people of our age.

Hemet High was honored with having our Student Body President elected to serve as president of the R.C.L.A.S.C. and as a representative to the Governors' Conference in April.

Keeping in mind their motto, "Unity, Our Password To Progress", The Class of 1957 realized there was going to have to be some hard work before all of the Senior Week activities could materialize.

Besides the traditional class play, the Class sponsored two highly successful bake sales, two not so successful car washes, (not the fault of the students, but of the weather) and the widely enjoyed "CA" Day.

JOAN CORDERY. CSF 3.

JUNIORS

Whew! car washes, bake sales, concessions, cake sales. All this just so the Seniors can have a banquet and prom?

Oh, and never forget the double duty of gathering wood because something unknown and mysterious caused the bonfire to burn a little ahead of time!

Following tradition, the Juniors produced and directed, with the valuable assistance of Mr. Newman, the Junior class play.

As a grand finale, and grand it was, the Juniors put on the annual Jr.-Sr. Banquet and Prom.

SOPHOMORES

Determined not to have financial problems when their time came, as Juniors, to sponsor the prom; the Sophs started selling concessions at the J.V. football games, along with having a bake sale and car wash.

Living up to the standards set by former Sophomore classes the "fifty-niners" decorated the goal post for all the home football games, painted the H, and made signs for all the home football and basketball games.

The night of February 27th was a big night in the lives of the Sophomores as they took the Juniors in a 26 to 20 win at the annual Jr. vs. Soph. basketball game.

Joining in on the "end of the year" festivities, the Sophomores served as waitresses and waiters for the banquet.

CLASS

A typical scene in Sophomore World History classes. Marilyn Essig, Calvin Nichols, and Barbara Wiseman are locating some far-away place on the map.

Someone is going to have to tell these budding archers, Ruth Hickel, Gudrun Frick, Kay Crawford, and Pat Goodwin, that they're not in Sherwood Forest!

Hard at work in the shop are Allen Bjur and Carl Jackson in the foreground, Ed Hellam, Tommy Lubin, and Ray Patscheck in the background.

SHOTS

These future chefs, Wayne Van De Walker, Jim Mathews, and Charles Yates are cooking some goodies with the help of Miss Fletcher.

Whatever it is it doesn't look very appealing, but Mr. Steinback and Becky Wyatt are certainly absorbed in it.

Mr. Howerton, what an attentive class you have! You must be telling them a good story.

PRINCESS BETTY ROGERS

Among other things initiated this year was the exquisitely designed crown worn by Kay Lynn Mathews as our Homecoming Queen. Kay Lynn was the perfect choice. Who did more to channel school spirit in the right direction?

PRINCESS CHARLOTTE PAGE

With the support of the newly organized Student Council behind her, our Commissioner of Activities went about the business of making the Homecoming 1957 the greatest ever seen here at Hemet. Bermuda Day, the parade through town, the spectacular bon-fire set off by the captain of the team, and the traditional Homecoming Dance were teamed to make this week special for all. (opposite page)

HOMECOMING WEEK!

A big event of the year was the completion and presentation of the new gymnasium. Excitement and anticipation was shared by the students, faculty, and board members alike. Diane Griffin was choosen to reign as queen of the new gym and Carol Bowen and Esther Wilson were the princesses. The former hanger that had served faithfully as a gym tor many years has now become the property of the girls' P.E. classes and, as is fitting, is now known as "Jane."

And, oh yes — if, by chance, you appen to be positively delighted with our labors, you might tell us about at too!

A familiar trio on the front lawn this fall — Bunny Currie, Chris Johnson, and Pam Wilcox seem happy as they count money, and check receipts from annual sales.

ANNUAL STAFF

Marion Wyatt and Donna Skelton talk over the plans and prob- ems of the art section for the annual.

Diane Griffin and Kay Lynn Mathews make comparisons and de- cisions for the lay-out of the senior section of the annual.

Stewart Ogburn and Clyde Smith, the male members of the annual staff, proudly display part of the sports section.

Making up the ad dummy proved to be a lot of fun for staff members Betty Rogers and Tam Conover.

White shirt day found Linda Melson and True Mohlenhoff happy with the results of their ad sales campaign and their novel lay-out for the ad section.

Jerry Walker and Ed Hellam check their camera before going out to get more pictures for the annual staff.

Some days things seemed to be pretty upset for Mr. Howerton, the annual advisor.

Many of the Hemet tacklers teamed to bring down the opponent.

The Hemet Bulldog eleven ended the season with a 3-3-1 record for fourth place. The squad, picked for sixth place because of comparative "greenness," showed that with spirit and determination they could come out on the long end.

After dropping both practice games, which was rumored to be the coach's strategy, the Bulldogs opened league play with the biggest upset of the football season. Highly favored Coachella was held scoreless by hosts of Hemet tacklers. Hemet aggressiveness was used to pile up yardage for a definite moral victory in a 0-0 tie.

It would be exceedingly hard to pin-point the outstanding players, for each was outstanding at one time or another. With many returning lettermen and some fine material moving up from JV ranks, next year looks bright.

Frank Villa carries the ball for a gain as Bill Dutton comes in to get ready to block.

Learning to carry the ball, to tackle, to block, to fall properly, and to take advantage of any opportunity are some of the rudiments of football taught to J. V. players. Under the guidance of Coach Coutts, these players gained experience which will help when they move up to the varsity ranks.

Wha' hoppen' to de ball? John Severns is on his way to find out.

Coach Smith led his squad against overwhelming odds.

BASKETBALL

Manager—Darrell Von Driska kept things in order for the coach and team. Darrell will be long remembered for his fine job.

The Bulldog casaba five had a promising start when they captured .the Concellation trophy at the San Diego Tournament. At the start of league play sickness struck some of the key players. Big Pat Loomis was out most of the season, Jim Mathews missed about five games and Stan Miller was out with a sprained ankle.

Showing the superior spirit at Hemet High, five boys came off the P. E. courts to fill the empty uniforms to help makeup a squad to be proud of—a squad that must have had something, or it wouldn't have thrilled Hemet rooters by beating The CIF champs, Banning, 37 to 34!

Seniors were the backbone of the team. Bill Vogel, a fine net man, and Orval Dale with a fine serve, played second doubles; Gene Thanning and Gene Tibbitts, playing the finest teams in the league, combined for first doubles; Richard Troelstrup, a power player, and Richard Johnson, a confident percentage player, alternated in top singles position; Tommy Long, though a late comer and playing in only three matches, was undefeated. The sophomores, Toby Hall and Tom Courtney, earned Varsity letters.

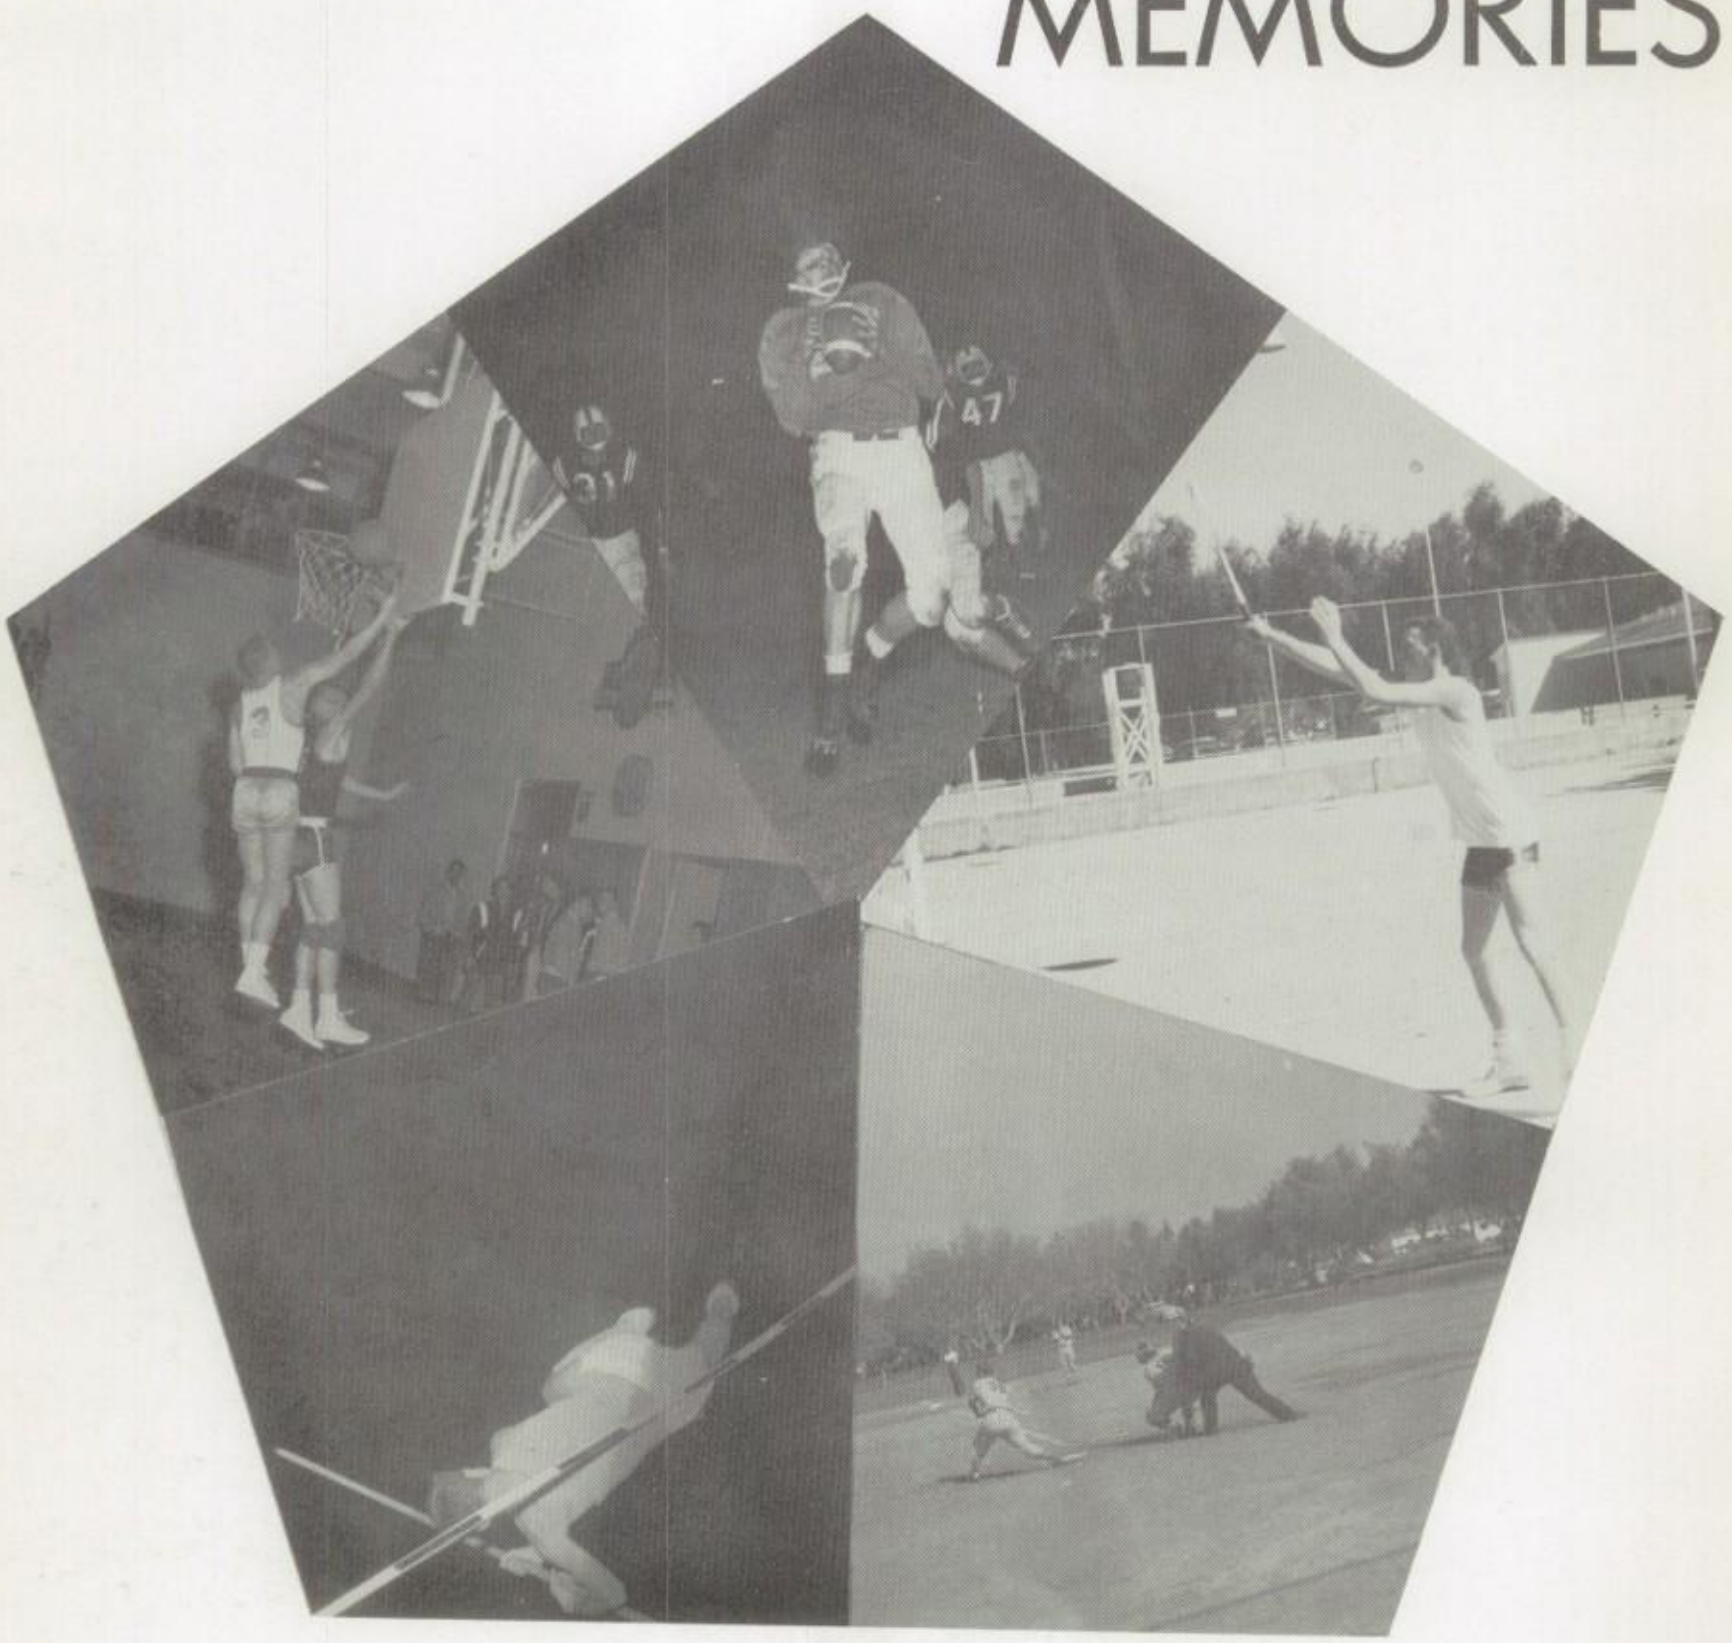
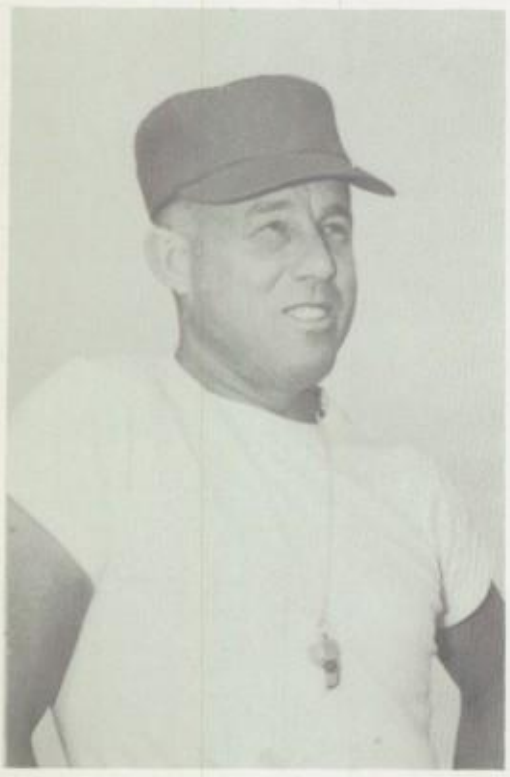
At the time the annual went to press our baseball team had a 2-2 record in league play. Previous to the league season they gained experience in practice games with larger schools. With each game they showed signs of improving.

This year's squad, composed mostly of Juniors and Sophomores, shows promise of being the top team in the R.C.L. next year.

Coach Knerr, in his first year at Hemet, has made many improvements in playing quality. Under his expert guidance the team should finish close to the top.

SPORTS MEMORIES





COACH. ROY COOPER

Coach Cooper's J.V. baseball team is on its way to an enviable record as they have chalked up 8 wins against only 1 loss thus far. Their only loss came from the hands of Beaumont, and the Bull-pups have beaten Beaumont twice.

Several of the J.V. players look like fine material for the varsity next year.

"AND MORE CLASSES"

"Crazy" seems to be the general concensus of opinion about that picture! Wonder what it is...

Gonna swat that ball!

Are there any questions? Of course, don't they always go with those oral reports?

"So you see, the radius is the line from the center to any point on the outside of a circle." Well, Mr. Hendrixson seems to be making his point on a geometrical construction.

Mrs. Read's idea of a math problem appears to be a pleasant one as several of her homeroom boys plant a lawn. Goal: to beautify the campus and develop mathematical skill.

My, this is an exceptional 7th grade P.E. class, no red shirts or blue shorts!

Three guesses what famous person these 9th grade students are studying!

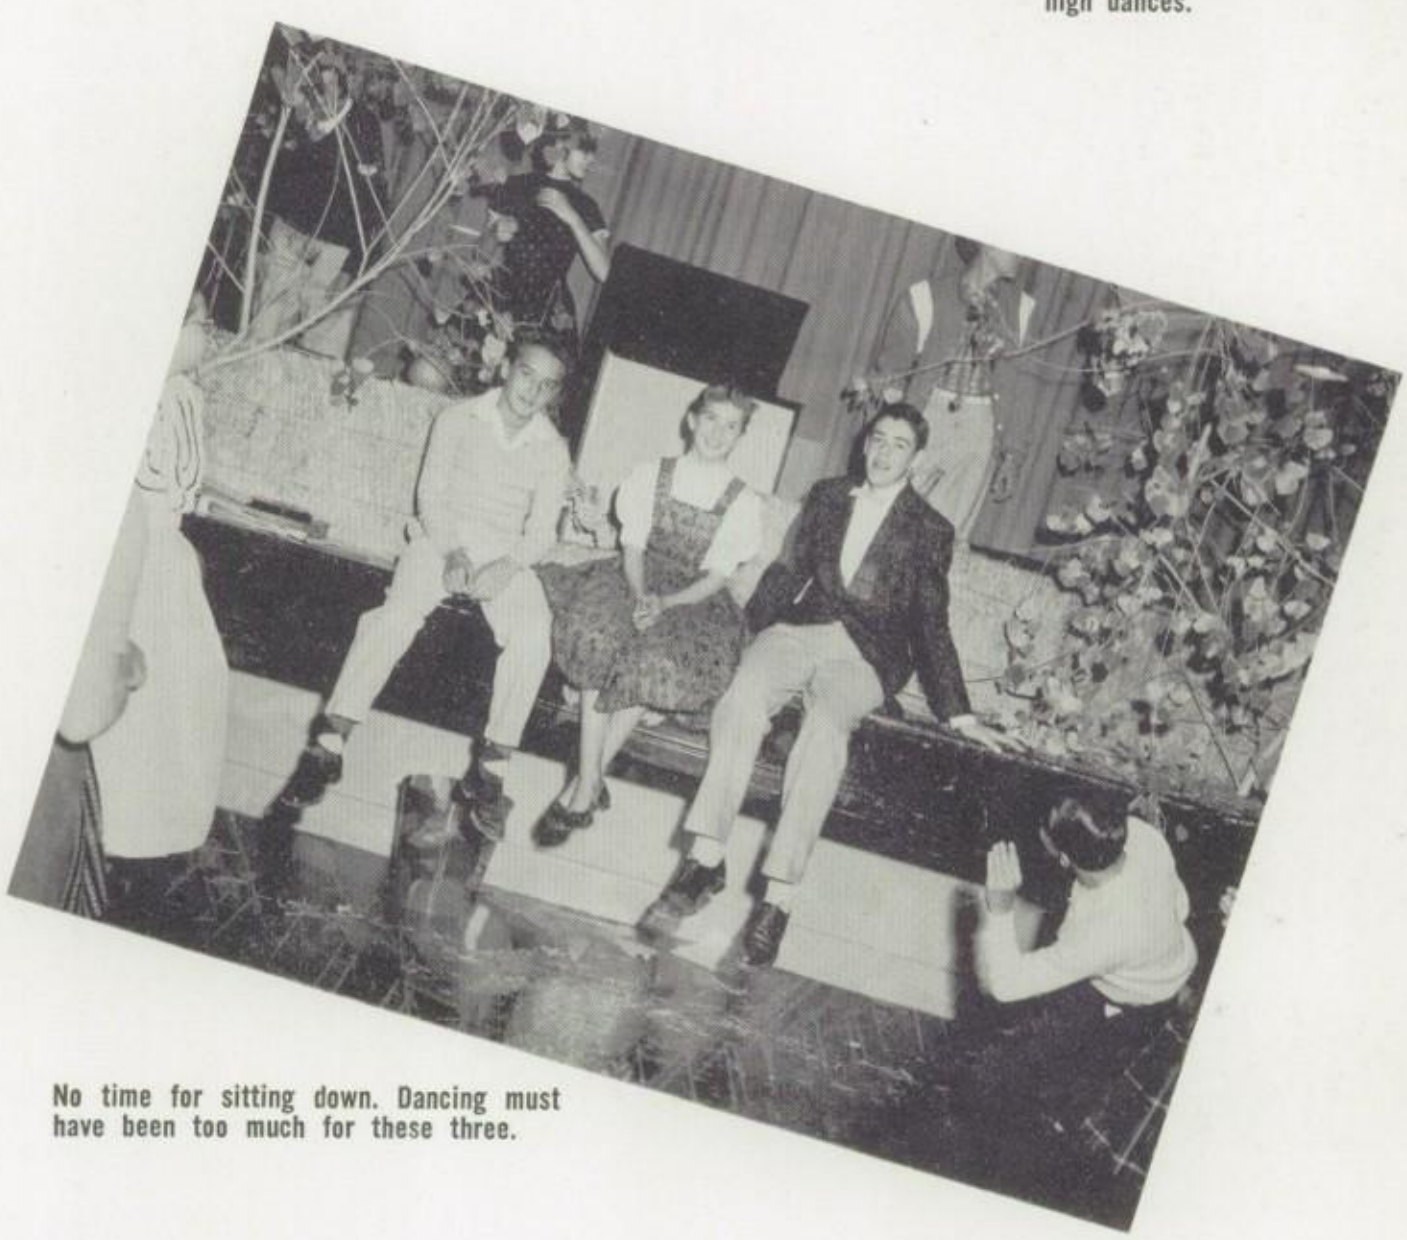
DANCES WERE "THE MOST!"

The school dances brought the junior highers out in their best. The dance floor was never empty due to such energetic dancers.

The bop was one dance that had to be done every hour on the hour at the junior high dances.



No time for sitting down. Dancing must have been too much for these three.

The Christmas dance finds these Junior-highschoolers kibitzing around the record player.

Suspense is recorded in these faces, as they await the outcome of the contest for king and queen of the Sweetheart's Ball.

These two, Frankie Villa, and Gerry Fairchild, are the exultant winners of the Junior High Bop Contest.

The main attraction here seems to be the food! The girls have done a commendable job of selling it at the Freshmen sponsored Junior High dance...

Patty Gelzer and Mark Bowen are the royal king and queen chosen at the Sweetheart's Ball.

What a young family man should know about life insurance agents...

On the day a man first starts pricing engagement rings, life insurance usually becomes an entirely new, vastly important, but somewhat confusing subject to him. And since he's almost certain to want to talk to a life insurance agent sooner or later, it's a good idea for him to know something beforehand about agents and the product they sell.

For example, he should know that selling is only part of an agent's job. Mainly, he's a thoroughly trained advisor—an expert on some of the problems that most profoundly affect our lives. The product he offers, purely and simply, is financial protection. His mission is to help families achieve security—both now and for the long haul.

Unlike other jobs, the most important part of an agent's work comes *after* he has made the sale and helped a young family plan their program of protection. Then it becomes the agent's year-in, year-out duty to service and develop the program, to anticipate changing needs, to expedite payment of benefits.

Any New York Life agent will tell you that's the most rewarding part of his work, too. It's seeing a home saved for a young widow and her children . . . watching a teenager start off for college . . . seeing a man, possibly *you* someday, happily retired with an income for life.

Something else any young man certainly should know . . . he should know his New York Life agent.

Judging from the pained expression on Paul Christie's face, he isn't nearly as satisfied as Benny Gibson is with his card. No matter, with such a wide selection of school and office supplies, gift cards and stationery, **HEMET STATIONERS,** 112 East Florida Ave., should be able to meet his needs.

Everyone knows that **JUDKINS MUSIC STORE** has the coolest records in town! Their fine selection of records and musical instruments suits the grown-ups as well as the teenagers.

In this time and age? Although **STIRDIVANT'S SHOE STORE** carries such noted brands as Red Goose, Grace Walker, and John C. Roberts, Mr. Stirdivant is trying to talk Ruth and Ruby Hickel into buying these shoes.

Relax, boys, you can't go wrong with these fine guns from **RALPH TINER'S SPORTING GOODS CENTER.** He has everything for the sportsman; athletic equipment, hunting and fishign, plus 24 hour service.

Well, if it isn't Diana Percival storing her groceries in one of **PATSCHECK'S** big Admiral refrigerators! She'll find radios, televisions, refrigerators, stoves, and many other handy appliances in such brand names as Westinghouse, Motorola and Admiral at **PATSCHECK'S RADIO AND TV.**

WOW! **GRACE'S APPAREL** specializes in nationally advertised brands for the fashion minded woman. Sally Skidmore and Linda Loomis are very nice models, too.

It's **FORD.** Walter Johannsen makes one last minute check, before taking off in his new Ranchero from C. CARTER CRALL. The passengers, Linda Nelson, Carol Bowen, and Joyce McGaugh, are pleased with Walter's taste and the fine service at **C. CARTER CRALL'S.**
